

## Your child needs your help!

There's no denying that we're in a spiritual war. We're surrounded by media that emphasizes selfishness over kindness, pleasure over integrity, ego over God. But in the face of such misleading values, how can we teach our children the right ones? How can we show them God's truths? How can they become strong enough to weather the challenges life throws their way?

For me, the answer was to write *The Campfire Gang* series. When I became a grandparent, I realized I had so much I wanted to teach my grandsons—and with my age, only so much time left to do it. So I wrote them an adventure series!

To encourage their curiosity and teach them about God, I invited my grandsons to join a courageous group of boys on an action-packed journey. Through battling bizarre creatures, exploring new worlds, and building new friendships, the boys discover the empowerment of God's Word and start following the plan He has for their lives.

But this series isn't just for my grandsons. It's for your child too! So come along on this wild adventure with me. Become part of *The Campfire Gang*!
